

Double Trouble Jingle

5

9

13

This is probably the very first Christmas song you learned as a beginner, Jingle Bells. Since you have made it all the way to Book 4, now it's time to **double the jingle** with some double stops. But you get to choose the double stop. On the fingerboard you will see all the possible notes for the key of A major in first position. Choose one of these notes to play with the melody note. After you decide your double stop notes, write them on the staff and add the stems.
